

FEDERAL MINISTRY OF
**COMMUNICATIONS
& DIGITAL ECONOMY**
Leveraging Digital Technology for National Economic Development

NCC COMPLAINT MANAGEMENT PROCEDURES AND RESOLUTIONS

The Consumer Affairs Bureau of the Commission was established since September 2001 in line with and to actualize the mandate of the provisions of Section 1(g), 4(b) and Chapter VII, Part 1 of the Nigerian Communications Act, 2003.

Its Mission is to ensure the protection of the rights, privileges and interests of telecommunications consumers, including the physically challenged groups through adequate information dissemination programmes; as well as effective policies and strategies that promote effective telecoms service delivery

The summary of the CAB Mandate is "To Protect, Inform & Educate consumers of telecommunication products and services in Nigeria"

PROCEDURES FOR LODGING CONSUMER COMPLAINTS

In order to protect the interest of Consumers, CAB developed Consumer Complaint procedures, the summary of which is stated below:

- The first step is for the Consumer to contact the relevant Service Provider (SP) to lodge his/her complaint.
- If the complaints is satisfactorily resolved, this is closed.
- Where the consumer is dissatisfied with the Service Providers in whatever way, he/she can contact the Commission as a Second Level Support through any of the following Channels for intervention: **(Details of Procedures for lodging complaints is hereby attached as Appendix A)**

CHANNELS OF COMPLAINTS

The following are the Channels through which Consumers can make complaints on their Service Providers to the Commission:

- The 622 Toll free Contact Center:** The Commission has 2 contact centres in Lagos and Abuja which receive Consumer Complaints and forward to the respective Service Provider for investigation and feedback. The Centres operate from 8am-8pm (Mondays to Saturdays). Upon lodging a complaint Consumers are issued a reference ticket number for tracking purposes. What a Consumer needs to do is to dial the 622 toll free number and lodge their Complaint.
- The NCC Consumer web Portal:** The web portal is an alternative online channel for lodging complaints or for making enquiries. The portal is available 24 hours and can be accessed via www.ncc.gov.ng/consumer domiciled on the Commission Website. It is also used for as a platform for information dissemination. Consumers receive feedback from the Commission as well as Service Providers with regards to the resolution of their complaint.
- Social Media/electronic Channels:** Complaints are also received via the Commissions Social Media accounts on Twitter (@NgComCommission /@Consumersncc), Facebook (Facebook.com/ Nigeria. Communications .commission), and Email (ncc@ncc.gov.ng). These are forwarded to Service Providers for investigation while feedback is provided to Consumers.
- Written Complaints:** Consumers can write their Complaints and submit same to the Commission. The Written Complaints can be submitted to the Head Office or any of the Zonal Offices as follows: **Head Office** Plot 423, Aguiyi Ironsi Street, Maitama, **Enugu Zonal Office** No 2, Ugwuoba Street Off Ezilo Avenue, Independence Layout, Enugu State, **Ibadan Zonal Office** 102A, DPC Road off Government House Road, Agodi GRA, Ibadan, Oyo State. **Kano Zonal Office** No. 1, Sokoto Road, By Audu Bako Secretariat, Nasarawa GRA, P.M.B 3212, Kano State, **Lagos Zonal Office** 9A Bankole Oki Street, Behind Ikoyi Club, Ikoyi, Lagos. **Port-Harcourt Zonal Office** No. 23A, Igbodo Street, Behind First Bank Aba Road, Old GRA, Port Harcourt, Rivers State. Consumers receive an acknowledgement letter, whilst a letter is written to the affected Service Provider directing it to investigate the issues raised and report back to the Commission within 7 working days.
- Complaints received through the Office of the Honourable Minister of Communications & Digital Economy via his tweeter account.** Some Consumers usually send their Complaints directly to the Office of the HMC&DE via his Twitter account. When such Complaints are received, the Commission forwards same to the affected Service Provider for resolution.

The table below shows Summary of Complaints from various channels between January 2019 to April 2020.

	COMPLAINT CHANNELS	NUMBER OF COMPLAINTS
1.	NCC 622 Contact Centers	24,481
2.	NCC Consumer Web Portal	1,007
3.	Written Complaints	296
4.	NCC Social Media Platforms (NCC Facebook and NCC Twitter)	366
5	Complaints received from the Office of HMC&DE (via Twitter)	19 (See Appendix B for details)
	TOTAL	26,169

COMPLAINT MANAGEMENT PROCEDURE

Upon receipt of any complaint from the telecom consumer, the CAB always forwards the complaint to the respective Service Providers to investigate and report back accordingly. In doing this, the Consumers are also carried along in the process of our intervention to know the progress made on the resolution of the complaint by the Service Providers involved.

To ensure prompt response, the Commission developed a Service Level Agreement (SLA) with the Service Providers which specifies the maximum time allowable to report back on escalated complaints received per Complaint category and description. The SLA has been in existence, but was revised in November 2019 (See Appendix C for details of the SLA).

Between January 2019 and April 2020, the Commission received a total of **26,169** complaints across the various channels and complaint categories, out of which a total of **25,575** which represents **98%** have been resolved as at date. The pending unresolved complaints are being followed up for possible resolution.

COMMENDATIONS

The Commission received a total of 1,321 Commendations from Consumers between January 2019 and April 2020. (See Appendix D for Samples of commendations received from satisfied Consumers)

COMPLAINTS RECEIVED DURING LOCKDOWN PERIOD

Following the global effects of the Covid 19 Virus pandemic, the Federal Government on the 30th of March, 2020 ordered the lockdown of the major cities of Lagos, Ogun and the Federal Capital Territory (FCT) while some other States followed suit.

Based on the above development the Commission observed that majority of complaints received during this period are Data related as indicated in the table below:

CATEGORY OF COMPLAINTS RECEIVED DURING LOCKDOWN PERIOD

Data	Billing	SIM Registration	Credit Depletion	VAS	Line Barred	Poor Network	FRAUD	TOTAL
58	3	2	5	3	2	2	1	76

The above clearly shows that out of 76 Complaints received during the lockdown period, 58 are data related. As at date, 68 out of the 76 complaints have been resolved (See Appendix E for details of complaints received during the lockdown period)

Investigations on this revealed that Consumers actually utilize subscribed data as against the perception of sharp practices by the Service Providers. It is pertinent to note that due to the lockdown, there is a high dependence on data as most people rely on the internet to work from home, watch and download video content, as well as engaging in various social media activities as further clarified below:

- According to Netflix streaming monitored via our phone usage, a TV show or Movie of an hour consumes 1 GB of data using the standard definition video and up to 3GB of data per hour for each stream of HD Video
- Consumers need to be aware that working from home entails conducting virtual or video conferencing which consumes data. Skype data usage is dependent on video or audio call, for normal video call on Skype, it consumes 300kbps but for HD video call on the same Skype, it consumes 1.5mbps connection. This analysis is for a single -person video calling while video call for more than one person consumes more data. For example 6 people in live video conference make use of at least 10mbps connection.
- Consumers who ordinarily spend most of their time at work using dedicated office internet connection for official and personal use now spend more time at home resorting to high consumption of personal data, hence spend more on data subscriptions.
- It was also observed that some consumers using wifi devices do not secure their devices and end up sharing the data with others without their knowledge leading to rapid data depletion.
- Some of the Consumers are either ignorant or not well informed on data usage management, even though the information is on the respective service providers website as well as contained in the service contract signed by the consumer upon purchase of data.

To buttress "5" above, a consumer claimed he bought 20GB of data and it depleted after some days but after a thorough investigation by the Service Provider, it was revealed that the consumer only bought 5GB of data which was used on high resolution Television to watch Netflix.

Consistent with the above, Consumers are advised:

- To monitor and manage their data usage, as well as have an awareness of the data plan they subscribe to i.e 5GB of data subscription for a month does not mean the data will last one month if the subscriber is streaming and downloading movies on high HD resolution etc.
- To password their WIFI devices to safeguard them from unauthorized use by others.
- To take into cognizance that due to the current lockdown, their data usage is bound to be on the increase as they work from home and engage in virtual meetings, and other official activities.
- To enlighten themselves more on how best to manage their data consumption by ensuring they do not have active applications running and updating at the background of their devices, to avoid wastage of while not in use.

Appendix A

PROCEDURE FOR LODGING A CONSUMER COMPLAINT

Consumers of telecom services – who are dissatisfied with services rendered to them by any of the operators have a right to redress the situation through formal lodging of complaints to the NCC.

Please read carefully the procedures, which are outlined hereunder in form of frequently asked questions and answers.

Ques: What is the first thing a dissatisfied consumer of telecom services should do in order to get his/her problem resolved?

Ans: He/she should first of all contact the service provider whose services or product he/she is not satisfied with and obtain a complaint ticket number. In the event that the issue is not satisfactorily resolved by the service provider, the consumer can call the NCC Contact Centre 622 Toll-Free number to lodge his/her complaint.

Ques: How can a dissatisfied consumer lodge a complaint?

Ans: A dissatisfied consumer can lodge a complaint by:

1. Completing a Consumer Complaint Form (CCF) which can be obtained on the Consumer Web Portal (CWP) or any of the NCC offices listed below. The CCF must be completed and sent to the NCC.
OR
2. Writing a letter to NCC which must be either hand or type written, must be legible, it should be concise and not more than two (2) A4 pages. The letter must be signed by the dissatisfied consumer.
OR
3. Calling the NCC Contact Centre 622 Toll-Free number to lodge your complaint providing ticket number given to you by the operator.

The Consumer Complaint Form (CCF) and letter of consumer complaint must be submitted to any of the NCC offices listed below:

HEAD OFFICE:

Director, Consumer Affairs Bureau,
Plot 423, Aguiyi Ironsi Street,

Email: consumerportal@ncc.gov.ng

Ques: What information must be provided in the written complaint?

Ans: The complaint must state name, address, phone number(s), fax, e-mail of the dissatisfied consumer, a statement of the problem and duration, a brief explanation of the circumstance that led to the complaint, name of service provider and the number of the telephone that has the problem, the date you contacted the service provider about your complaint, copies of any relevant supporting document such as service agreement, bills, contracts, promotional leaflet etc which would assist in our investigation.

Ques: What happens when a consumer's complaint is received by NCC Consumer Affairs Bureau?

Ans: The Consumer Affairs Bureau analyses the complaint and starts investigations immediately. Where the Bureau is satisfied that the service provider has breached terms of its contract with the consumer or contravened the provisions of the Nigerian Communications Act 2003 and the Consumer Code of Practice Regulation etc., the Bureau will contact service provider and report findings to the NCC on the outcome. The Bureau will mediate as appropriate to resolve the issues.

Ques: Will NCC Consumer Affairs Bureau get back to the consumer who lodges a written complaint?

Ans: Yes, in the case where investigations are concluded in less than 48 hours, the dissatisfied consumer will be reached by phone or e-mail otherwise he/she will be communicated in writing, on the outcome of the investigation.

Ques: Do I have to pay for the services of the Consumer Affairs Bureau?

Ans: No. the services of the CAB are rendered FREE OF CHARGE

Ques: Can an aggrieved consumer sue the service provider in law court over a breach of contract?

Ans: Yes, however, in line with the provision of the Nigerian Communications Act (NCA), 2003, a dissatisfied consumer should first seek redress with the service provider and if unresolved, report to the NCC. A court action may be considered as last option.

Ques: What avenues for redress are available within NCC?

Ans: The NCC has two distinct redress processes available:

1. Consumer Complaints Resolution Process
2. Arbitration Process

Ques: What issues can consumers complain to NCC ABOUT?

Ans: Consumers can lodge complaints on the following issues amongst others: doubtful bills, arbitrary disconnection of lines, nonchalant attitude towards genuine complaints, poor services delivery, inappropriate or deceptive advertisements, unauthorised increase in price, and supply of sub-standard equipment, exploitation and invasion of privacy.

Ques: Is NCC a Government Agency?

Ans: Yes, NCC is a full-fledged Federal Government agency with independent status to effectively regulate the activities of operators, suppliers and consumers in the telecommunication industry.
